Price: 300.00 \$

1973 Starcraft Starflite PopUp Camper

NO Title

(We called to verify it had not been stolen when we bought it)

Purchased it in September 2015 and took it camping in New Braunfels.

We bought it to fix up and decided we don't want to put anymore money into it.

Needs the front left lifter cable replaced. We ordered 4 new cables that go with the camper. I did not fix the broken cable. You can still lift and lower it manually if you have two people, until the cable is repaired.

I sewed new cushion covers for it.

It has an a/c but it didn't blow very cold when we camped in it. Probably needs freon.

We painted it in the canvas
