Address: **Ludowici**
Price: **150.00 \$**

Handmade, wood armadillo trap. Made with pressure treated wood this trap has two doors that are triggered by a wood trigger in the center of the box.

The trap is 36" Long x 14" Wide x 34" High and weighs around 40 pounds.

These traps are unscented, once you have trapped your first armadillo, that will leave a scent in the wood thereby attracting future armadillos.

Wood traps are a much better alternative to the metal cage traps. The wood keeps the scent as a natural attractant, and I have seen armadillos escape the metal traps by bending the trap door to force it open. That will not happen with a wood trap.

Traps are made to order. I will consider delivery for an additional fee, just send message to discuss.

Payments accepted: Cash, Zelle, Venmo.
